

BODY SCULPTING

Our nuFORM EMS-powered treatment sculpts and tones the body and face effortlessly—no sweat, no downtime. Perfect for tackling “mommy tummy,” building a six-pack without crunches, and even achieving a non-surgical butt lift. This treatment focuses on muscle definition and improved contours without invasive procedures.

Safe

Non-invasive and non-ablative. It is easy to use without an operator, and it is simple and safe.

Effective Treatment

Simultaneous treatment of multiple areas. 6 (flat fixed) hands-free handles that can cover 300cm² at the same time on the abdomen and both sides.

Versatile

Special hand-held handle, suitable for smaller and more sensitive parts of the body, such as side breasts, double chin, face. Maintain the subcutaneous temperature of the treated area evenly throughout the procedure.

Comfort-Focused Design

Gentle, targeted stimulation means you can lay back and relax while your muscles do the hard work. No pain, no downtime—just results.

BENEFITS:

- ✓ Builds and tones muscle for a more defined physique.
- ✓ Non-invasive and completely sweat-free.
- ✓ Helps you achieve your aesthetic goals without surgery.
- ✓ Pain-free- walk away the same day with no muscle soreness or cramping

PROCEDURES:

- ✓ Non-surgical Butt Lift
- ✓ Mommy Tummy Rescue
- ✓ Bladder Control
- ✓ 6-Pack Abs with no effort

RESULTS:

WHAT TO EXPECT

Each session lasts 30–60 minutes, using advanced EMS energy to trigger intense muscle contractions in key areas like the abdomen, thighs, buttocks, and arms. Results appear gradually over 4–12 weeks, with a series of treatments recommended for optimal sculpting and definition.
