

What Is nuTENZA?

nuTENZA is a non-invasive aesthetic treatment designed to help restore skin firmness, reshape stubborn areas, and redefine natural contours – without surgery, needles, or downtime.

Using controlled therapeutic warmth, nuTENZA works beneath the surface to stimulate collagen, improve skin quality, and support visible tightening and sculpting across the face and body.

Each nuTENZA treatment is tailored to your goals and performed by trained professionals focused on natural, confidence-boosting results.

ReSTORE. ReSHAPE. ReVIVE.

- Tighten & lift loose skin
- Smooth stubborn fat areas
- Support natural collagen renewal

Non-invasive. No needles. No downtime.

Jowls

Q & A

What is nuTENSA?

A non-invasive treatment designed to tighten skin, smooth stubborn areas, and improve overall skin quality – with no downtime.

What does a treatment feel like?

Warm, comfortable, and relaxing. Most patients describe it as massage-like.

Is there any downtime?

No. You can return to normal activities immediately after treatment.

When will I see results?

Some results may be noticed early, with continued improvement over a series of treatments as collagen rebuilds.

Who is a good candidate?

Anyone looking for natural-looking skin tightening, contour refinement, and improved firmness without surgery or injections.
